

BLUE SUNDAY LAW TESTED IN CLOVIS

Business Men Raise Fund to
Contest Decision of Judge
Pope in Regard to Sunday
Baseball.

(Special Correspondence to the Herald)
Clovis, N. M., Aug. 24.—A game of baseball was pulled off in Clovis last Sunday in direct defiance of the law. It was the first game that has been played there for some time. It was only started, however, when Deputy Sheriff John Olson stopped the play and arrested the managers of the team. O. L. Green and Tom Lachner, and took them away to jail. They were heard in the local court and found out to await the judgment of Judge Pope at the fall term.

The whole affair was a test case. The business men of Clovis, believing that Sunday was meant for rest and recreation, did not believe that Judge Pope's decision that Sunday baseball was contrary to the territorial law would be sustained by the ruling court. Judge Pope had declared that so long as it was held in the district, the business men decided that the only way out of the matter was to test the case, so a game of ball was arranged between the local team and the Santa Fe team, and O. L. Green and Tom Lachner elected as captains. The sheriff was notified and he was on hand to arrest the people managers in due course of law according to the instructions of the judge. A sum of \$300 has been raised to fight the matter in the courts.

STATEHOOD BOOM HITS DEMING

Many Letters Are Being Re-
ceived Asking About Oppor-
tunities in New State and
in Mimbre Valley.

Deming, N. M., Aug. 24.—A. E. White, 20 miles south of town, was in Deming today and reports for the well getting fine, has pumping out, containing a 25-horse power 150-Watt engine and a No. 2 centrifugal pump. Mr. White was to go to another subdivision in Japanese field, also made and another. He expects to go to the state capital next week.

Mr. J. T. Tiller, the efficient director of the Southern Pacific office, who recently left the city, has returned to his office here and is now in the office of the Southern Pacific office, which was his former home. He will be in the office of the Southern Pacific office, which was his former home. He will be in the office of the Southern Pacific office, which was his former home.

Statehood is being felt here, as in every part of New Mexico. The small businessmen are looking for the state to do for them and the people of the state are looking for the state to do for them. The state is looking for the state to do for them and the people of the state are looking for the state to do for them. The state is looking for the state to do for them and the people of the state are looking for the state to do for them.

WHY WOMEN SUFFER

Many Albuquerque Women Are
Learning the Cure.

Women often suffer, not knowing the cause.

Backache, headache, dizziness, nervousness.

Irregular urinary passages, weakness, fainting.

Each a warning of trouble of itself. Together tell of weakened kidneys. Strike at the root—get to the cause.

Quickly give the help the kidneys need.

No remedy endorsed like Doan's Kidney Pills.

Recommended by thousands—Endorsed at home.

Here's encouraging proof from an Albuquerque citizen.

Mrs. E. Adair, 111 S. Fifth St., Albuquerque, N. M., says: "Two and a half years ago I used Doan's Kidney Pills and was so pleased with the benefit I obtained that I was glad to publicly recommend them. In giving this second statement, it is my desire to show that I value this remedy as high as ever. I had such severe pains across my back and between my shoulders that I was greatly inconvenienced in getting around. The contents of one box of Doan's Kidney Pills relieved me so greatly that I could not do otherwise than praise them."

For sale by all dealers. Price 50 cents. Posters-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember this name—Doan's—and take no other.

"Well, well, well," said the kind stranger, putting little Mollie on his head. "I suppose you are your papa's little darling?"

"I don't know yet, this," lifted Mollie. "The court behind me is not mine. I'm the girl of the Marmonial Pickney and Kennedy Trust company, this!"

FACTORY PLANNED FOR DEMING

T. W. Osterheld, Chief Engineer for Meerschaum Company Thinks That Directors Plan Plant in New Mexico.

Deming, N. M., Aug. 24.—Theodore W. Osterheld, chief and consulting engineer for the Meerschaum company of America, has returned to Deming from New York after a month absence on business of the company. This company, the only one of its kind in America, manufactures out of famous deposits of meerschaum found about 25 miles northwestern from Silver City, plans and manufactures articles which in every way equal the articles of the famous meerschaum found in the East. The company has a large stock of these deposits were called to the attention of Messrs. Osterheld and Osterheld about five years ago, they have done much expensive experimenting to see if the material could not in some way be made to answer the same purpose as the pure meerschaum. They at last decided that the process by which this could be done. It is said that the first pipe this company manufactured cost \$225,000.

After the process was perfected, they built a small factory in New York, capable of turning out 45 pipes of meerschaum articles per day. The demand for their products increased, until recently they have put in a much larger factory at Ogdensburg, N. Y., capable of turning out 200 pipes of articles per day. The company is now contemplating establishing a factory in Deming, N. M., as there are a number of conditions here which seem to make Deming the ideal place for this establishment.

The new material taken from the mine is crushed, screened and washed in the mines, and is then shipped to New York for further preparation. The first pipe was put on the market last December, and now these articles are being sold in the Vienna market, the home of the Turkish meerschaum, as a single evidence of the value and quality of the product. This company claims to manufacture a pipe for from \$2.50 to \$5.00, but is better than the Turkish product, which ranges from \$5 to \$15. The deposit of this material is practically unlimited, as the vein has already been traced by its outcrop for a distance of five miles.

This company puts out an official bulletin in the form of a letter, printed with meerschaum, also, only bushes lined with meerschaum.

INVESTIGATION BY CHINESE FINISHED

Work of Commission That In-
quired Into Massacre of Im-
perial Empire Subjects in
Old Mexico Reported Done.

Tucson, Mexico, Aug. 24.—The work of the joint commission which was sent here last week by President Harding to investigate the massacre of Imperial Empire subjects in Old Mexico, has been reported as finished. The commission, which was headed by Mr. J. H. Morgan, secretary of the commission, will leave this afternoon for Mexico City to report their findings. The date of the departure of the commission was reported by Mr. J. H. Morgan, secretary of the commission, who was in the city today. The commission was sent here last week by President Harding to investigate the massacre of Imperial Empire subjects in Old Mexico.

MOTHER INJURED WHILE PROTECTING HER BABE

Thrown From Wagon in Runaway
Accident, Woman Shields Child
While Wagon Passes Over Her

Hips.

Deming, N. M., Aug. 24.—Mrs. Ed. Gregson, wife of Dan Gregson of this city, was seriously injured in a runaway accident at the Blue Ranch near Pine Lodge Saturday.

The team to the wagon in which she was riding became frightened at a freight train and ran over an embankment, sending the occupants. A hind wheel, passed over Mrs. Gregson's hips, and she was thrown from the wagon.

She is now in the hospital at the Blue Ranch, and is expected to recover. The accident occurred at about 10 o'clock in the morning.

DOG DISTINGUISHES GREEN AND RED

Wonderful Powers of Discrimination of Canine of Section Foreman; Gives Alarm at Red Signal.

Tucson, Ariz., Aug. 24.—Can a dog tell green from red when displayed on a switch along the track of a railroad and can it learn the significance and importance of the green and red signals as applied to railroading? H. W. Sheridan, section foreman of the Southern Pacific division of the Southern Pacific company, says that it can and Sheridan has a mass of evidence to prove his assertion. Sheridan secured his evidence recently while conducting an efficiency test about 10 miles north of Sacramento, Cal. While several assistants were charged the light on one of the switches from green to red, they waited to see if the dog of the next train would observe the change and stop the train before it reached the switch.

The dog began to bark as soon as the red light was shown in place of the green. It ran around the signal for several minutes and then to the quarters of the section foreman. A half mile away. Shortly after the foreman appeared with a lantern and a shanty, and he and the dog and several of his assistants had a difficult time in examining the red light to the satisfaction of both the dog and the master.

These efficiency tests are conducted throughout the year for the purpose of testing the dog's ability to distinguish between green and red signals. The dog is trained to bark when it sees a red signal and to be quiet when it sees a green signal. The dog is also trained to stop the train when it sees a red signal. The dog is also trained to bark when it sees a red signal and to be quiet when it sees a green signal. The dog is also trained to stop the train when it sees a red signal.

EL PASO MEN ARE ENTHUSIASTIC ABOUT OIL

Parties From Pass City Give
Glowing Account of the
Seven Lakes Fields, and Re-
port Great Activity There.

El Paso, Tex., Aug. 25.—W. W. Hartman and W. L. Hoot of El Paso, N. M., reported yesterday in El Paso with glowing accounts of the oil strike made in the Seven Lakes district, 25 miles south of the New Mexico border. Their report which actually is the result of the Tom Telle strike.

We have made about 100 tons of oil, says Mr. Hartman, "but we are not sure of the oil strike is the only discovery made. Hartman is going to El Paso, and many other experts have arrived. There is no question about the oil strike, and we believe that there is a field in the locality."

The oil was discovered at a point 24 miles from El Paso, a station on the main line of the A. T. & S. F. railway, after a long and arduous search, after the field was discovered. El Paso is the shipping and shipping center of the district.
